

Diver's Camera MUT-DC-H401	-Underwater analog camera, equipped with subconn MCBH3M+MCIL3F connector -Rated depth 300m -Effective pixel 1280(H)*720(V), horizontal definition 1000TVL -Aluminium alloy casing -Support voltage 12~24VDC		
Aquaculture Camera MUT-UAC01	-2M pixels, 1080P HD -Rated depth 50m -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -Two modes of infrared and white light -316L Stainless steel casing		
Underwater IP Camera MUT-IPC-02B11-2M MUT-IPC-02B11-8M	-2M/8M pixels,1080P/4K -Rated depth 300m -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -316L Stainless steel casing -Can be customized with a 2.8~12mm 4x zoom lens		
Underwater Wide-angle IP Camera MUT-IPC-07E11	-8M pixels, 4K HD -Rated depth 300m -Underwater wide angle, up to 125°, built-in image correction algorithm, no image distortion. -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -316L Stainless steel casing		
Compact Underwater IP Camera MUT-IPC-16M11	-2M pixels, 1080P HD -Rated depth 300m -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -316L Stainless steel casing -Small size, easy to deploy in narrow space.		
Self Cleaning Underwater Camera MUT-IPC-10B11	-2M pixels, 1080P HD -Rated depth 200m -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -Support character superposition through TTL serial port or RS485, the size and position are adjustable. -316L Stainless steel casing and POM material frame -Two 50W high-power adjustable brightness fill lights -The wiper frequency is adjustable.		
PTZ Underwater Camera MUT-IPC-08K11	-2M pixels, 1080P HD. Horizontal 0°~355°, Vertical 0°~90° -Rated depth 200m -2.8~12mm zoom -IP camera,support standard ONVIF -Built-in underwater fog penetration algorithm -316L Stainless steel casing -4 LED fill lights with adjustable brightness. , power 15W each		
Underwater Binocular IP Camera MUT-IPC-33J11-2M MUT-IPC-33J11-4M	-2-channel 2M/4M pixels high-definition -Rated depth 300m -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -316L Stainless steel casing -High synchronization, the binocular delay is less than 1ms.		

Underwater High Magnification IP Camera MUT-IPC-15L11	-2M pixels,1080P HD -Rated depth 300m -5.85~93.6mm, 20x ultra-high zoom. -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -316L stainless steel casing		
Deep-water ultra-low-light web camera MUT-IPC-19P11	-1080P high definition, low illumination, star-level illumination environment imaging clear. -Support Standard ONVIF, can connect to the market general monitoring equipment. -The built-in image enhancement algorithm and underwater automatic fog transmission function can effectively enhance image of muddy water and restrain image greenness of shallow water. -Rated depth 3000m -TC4 casing		
Compact Deep-water IP Camera MUT-DS6K-IPCM	-2M pixels, 1080P HD -Rated depth 6000m -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -316L Stainless steel casing -Small size, easy to deploy in narrow space.		
Deep-water Wide-angle IP Camera MUT-DS6K-IPCE	-8M pixels, 4K HD -Rated depth 6000m -Underwater wide angle, up to 125°, built-in image correction algorithm, no image distortion. -IP camera,support standard ONVIF -Built-in color restoration and underwater fog penetration algorithm -316L Stainless steel casing		
Deep-water AC Camera MUT-DS6K-ACH401	-Underwater analog camera, equipped with subconn MCBH3M+MCIL3F connector -Rated depth 6000m -Effective pixel 1280(H)*720(V), horizontal definition 1000TVL -316L Stainless steel casing -Support voltage 12~24VDC		
Deep-water Black and White IP Camera MUT-DS6K-IPCR	-8M pixels, 4K HD -The output of black and white images -Rated depth 6000m -IP camera,support standard ONVIF -316L stainless steel casing		
Underwater Small AHD Camera MUT-AC-01A11	-Maximum pressure 3000 meters -Ultra-small size and weight -Use IMX307 2M low light CMOS -Coaxial HD output, clear and delicate image -Adaptive digital noise reduction, 2D-DNR, 3D-DNR -Support digital wide dynamic -316L Stainless steel casing		
Deep Water Zoom SDI Camera MUT-AC-02B21	-Effective pixel 1920 × 1080, horizontal resolution 1000TVL -SDI signal transmission -Coaxial cable and BNC interface connection -4.7-47mm 10x optical zoom, 12x digital zoom -Titanium alloy housing, -the maximum working depth of 3000 meters
