

1200 Lumen Compact Subsea Light MUT-L1200-15	-Power 15W, 1200 lumens -Support voltage 12~28VDC -Rated depth 500m -Aluminium alloy casing -Mandatory lighting mode, PWM control -Tight cable protection -Overheating protection -Small size, easy to deploy in narrow space.		
1500 Lumen Compact Subsea Light MUT-011	-Power 15W, 1500 lumens -Rated depth 200m -Support voltage 12~36VDC -Aluminium alloy casing -Mandatory lighting mode, PWM control -Small size, easy to deploy in narrow space.		
2000 Lumen Diver's Light MUT-DL-104	-Power 24W, brightness 2000 lumens -Rated depth 500m -Aluminium alloy casing -Subconn MCBH3M+MCIL3F connector -Dimming mode 0-24VDC (0 100%, 24 0%)		
3500 Lumen Subsea Light MUT-035-AL MUT-035-SS	-Power 35W, 3500 lumens -Rated depth 300m - Support voltage 24~36VDC -Mandatory lighting mode, PWM control		
5000 Lumen Compact Subsea Light MUT-LL-052	-Power 50W, 5000 lumens -Rated depth 300m -Support voltage 24~36VDC -316L Stainless steel casing -PWM or RS485 control		
10000 Lumen Compact Subsea Light MUT-LL-063	-Power 100W, 10000 lumens -Rated depth 300m -Support voltage 24~48VDC -316L Stainless steel casing -PWM or RS485 control		
2500 Lumen Square Subsea Light MUT-LL-25A	-Power 25W, 2500 lumens -Rated depth 300m -Support voltage 24~36VDC -316L Stainless steel casing -PWM control		
5000 Lumen Compact Square Subsea Light MUT-LL-052A	-Power 50W, 5000 lumens -Rated depth 300m -Support voltage 24~36VDC -316L Stainless steel casing -PWM or RS485 control		
1500 Lumen Deep-Water Light MUT-DS6K-L15	-Power 15W, 1500 lumens -Rated depth 6000m -Support voltage 12~36VDC -316L casing -Mandatory lighting mode, PWM control -Small size, easy to deploy in narrow space.		

3500 Lumen Deep-Water Light MUT-DS6K-L35	- Power 35W, 3500 lumens - Rated depth 6000m - Support voltage 24~36VDC - 316L casing - Mandatory lighting mode, PWM control		
5000 Lumen Deep-Water Light MUT-DS6K-L50	- Power 50W, 5000 lumens - Rated depth 6000m - Support voltage 24~36VDC - 316L Stainless steel casing - PWM or RS485 control		
10000 Lumen Deep-Water Light MUT-DS6K-L100	- Power 100W, 10000 lumens - Rated depth 6000m - Support voltage 24~48VDC - 316L Stainless steel casing - PWM or RS485 control		
PANEL FLOODLIGHT MUT--DS6K-FL100	- 24V~48Vdc LED panel light - Power 100W, 10000 lumens - Rated depth 6000m - Aluminum alloy casing - PWM or RS485 control		
Underwater Indicator MUT-LL-J01	- Power 0.2W, -Support voltage 12~24VDC - Rated depth 500m - 316L Stainless steel casing - Optional: red, green, blue, yellow, white		
Underwater Indicator MUT-LL-J02	- LED Strobe Light Beads - Rated depth 200m - Optional: red, green, white		
Underwater Laser MUT-S-L01-Pointer MUTS-L01-Line Generator S-L01Cross Generator	- Laser color and wavelength: red 650nm - Laser Shape: point, line, cross - Laser class: Class IIIB - Rated depth 150m - 316L Stainless steel casing		
Underwater Laser Rangefinder MUT-S-L02	- Distance measurement range: 0.05m~40m (in air) - Resolution: 0.001m - Data interface: RS485 - Rated depth: 200m		
Underwater Parallel Laser MUT-S-PL01	- A parallel beam laser is designed for ROV and subsea systems. - Projects two parallel beams that appear as green dots in images, used to get distance and scale of underwater objects. - Accurate to 5m distance - Rated depth 300m - 316L Stainless steel casing
